For the socio economic survey we are collect the data using prescribed formatting the student of government degree college seethanagaram,adikavinannaya university . Went to the cheepurupalli village for socio economic survey in the part of COMMUNITY SERVICE PROJECT, Our main moto of this survey is to know about the villagers living , social and economic conditioner . in this process we are selected some topic and doing survey on that topic . We have 20 questionnaires on the topic .

In the part of social - economic survey I conduct a survey on the topic " WATER FACILITIES AND DRINKING WATER AVAILABILITY " and I went to some villagers home and ask about their life styles , routine work , professions of income , health issue , driking water facilities , water source , composition of facilities etc It has been observed that the many people have government tap connection maximum no of people was stay in pucca semi pucca and bungalows

The chief economy of the village is devender on the agricultural heance people have been found engage with faerming relatyed works

80% of people are use govt tap connection water and 20% of people commontap connection water.

All the families have own toilets and use LPG for cooking purpose all the womens are in dwacra groups and villagers face some common health problems like BP sigarate and knee pains.

All the villagers have ration card some of the vikllagers don't have the availability of agricultural land .

- Power problem
- Problem with street road
- Rain water staying on the road
- Bus not available
- Drainage is not flowing
- Drinking water is not available
- By the survey above problem are analysed

4 SHORT TERM POSSIBLE SOLUTIONS:

1 . POWER PROBLEMS:

It should be told to the electricity related officer they can solve the problem.

2 . STREET ROAD PROBLEMS

It should be told to the authorities ward sachivalayam officer volunteer panchayathi secretary and they solve the problem.

3 . RAIN WATER STAYING ON THE ROAD

It should be told to the panchayathi secretary or write a letter to higher authorities they can solve the problem .

4 . BUS NOT AVAILABLE

It should be told to the authorities ward sachivalayam officer and volunteer and secretary and they solve the problem.

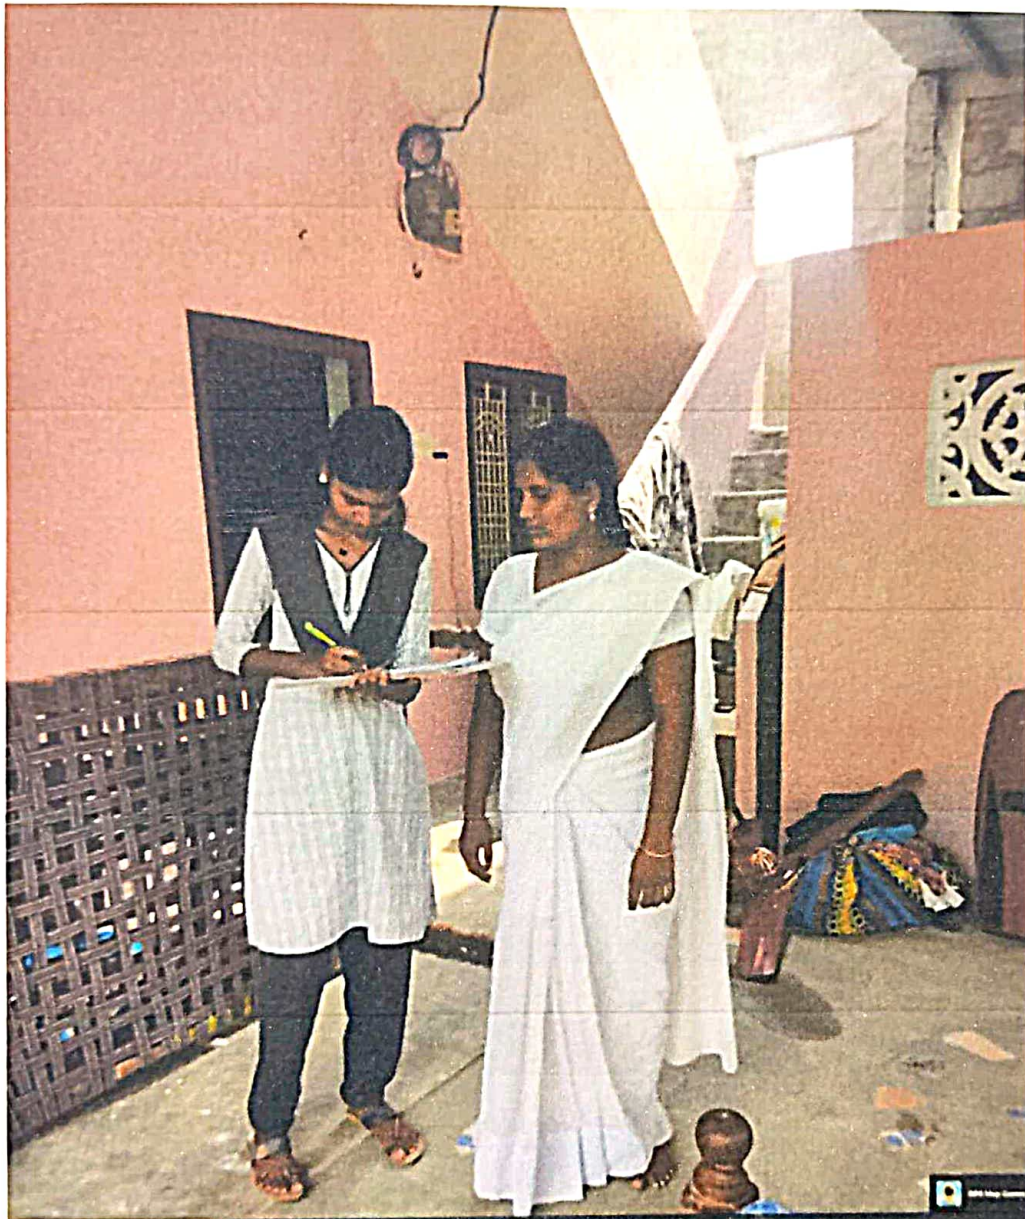

5 . DRAINAGE PROBLEM

It should be told to the panchayathi secretary are the cleaning workers they clear the problem.

5.COMMUNITY AWARENESS PROGRAMME AND THE PROBLEMS AND THEIR

OUTCOMES

- I conduct a company in my village cheepurupalli in a part of community service project.
- I Explain about water pollution.

PROBLEMS:

Some times they are troubled by moss in the water

OUT COMES

- Now they are clear out idea about the water
- They know about merits and demerits of the water
- They are very well understands about

PART – B

INTRODUCTION TO DRINEGY SYSTEM :

“ Development of drinegy infrastructure in village using GIS”
project by final year students of civil engineering depart ment ,
DON BOSCO college of engineering fatorda.

The corrective measure purpose in this project are offering economical and sustainable solution to the problems faced by the residents of the village .

After the visits to the words and hearing the problem faced by villagers from their representatives , we decided to take up this project and offer a feasible solution to drainage problem.

PART – C

RECOMMANDATIONS:

- All levels of government should recognize the potential usefull ness of water transfers as means of responding to changing demands for use of water resources and should facilioties volunteer water tanks for as a

14

component of policies for overall water allocation and management. Subject to process designed to protect well defined third party interests.

Conclusion :

- Drinking water is a very important thing on our bodies health .not only humans but also all of the organising need water to service .The important of drinking water for our bodies is paramount to our health, because it makes upto 70%of the out bodies health

- *Tractors,manpulled cycle rickshaw, animal driver carts are available in this village.

Agriculture:

- * Paddy and sugar cane are agriculture commodities grow in a village.
- *Rice is product manufactured in this village.
- *7hours agriculture powersupply in summer and 9hours agriculture power supply in winter is available in this Village.

Schools near by village :

***Government schools:**

- *Sri parimivenkata Hari mohan memorial Zillaprazaparishit high school, raghudevapuram.
- *Govt primary school, raghudevapuram.

***Primary schools:**

- *GGowthami(E.m) raghudevapuram.
- *HarshaVardhana, raghudevapuram.
- *Surya Chandra,seethanagaram.
- *Jhananidhi, seethanagaram.

Health centers:

- *3 primary sub-centers.
- *1 mobile health centers.
- *3 rmp doctors.
- *Rama nursing home , seethanagaram.
- *3 medical shops are available in this village.

Communication:

- *post office is available in this village.
- *Land line available.
- *Mobile coverage is available.

Drinking water is one of the most important source of basic amenities to be ensured in our daily life style.even near about 80%of the families use govt tap connection and other 20% of the families use r.o

water to drinkall the families have own toilets families are LPG type cooking fuel is uses.

As per the government scheme most of the villagers have their bank accounts they use it for each transaction related to aagriculture.As a result of it, they don't have fixed deposits yes in the age of digital economy rural people use debit card or ATM cards.theyuse it for drawing money as per their requirements and the part of the government schemedwacra group.

The village has to be properly needful developed.it stills lack the needful amenities for basic life style.the government and local administration like panchayat should work together to make their life style better than the current security in the village there is only middle standardschool.people are partially satisfied with implementation of government school.the village has mixed types of houses including kacha and puccahouses.majortransportation system of the village is bus.commonly highest education standard in a family is standard 10th criminal rate of the villagers is almost nill.

Women are quite active inside and outside the precinct of houses. The village does not have proper disposal system like waste management.

3.problems identified and analysis of the problem:

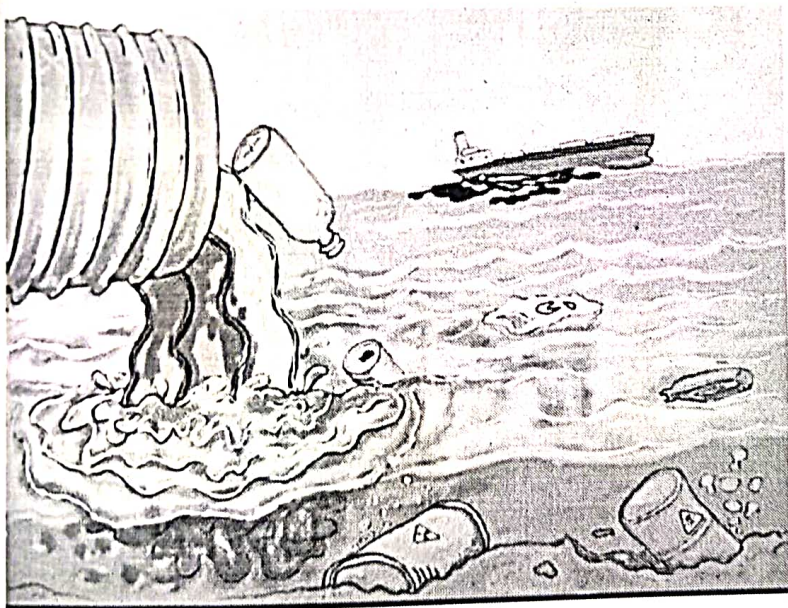

Part:b

***What is water pollution:**

Water pollution is the contamination of sources by substances which make the water unusable for drinking, cooking, cleaning, swimming, and other activities. pollutants include chemicals, trash, bacteria and parasites all forms of pollution eventually make their way to water. land pollution can seep into an underground stream, then to a river, and finally to the ocean. thus waste dumped in a vacant lot can eventually pollute a water supply.

Water pollutants may cause disease or act as poisons. bacteria and parasites in poorly treated sewage may enter drinking water supplies and cause digestive problems such as cholera and diarrhea. many water pollutants enter our bodies when we use water for drinking and food preparation. the pollutants enter the digestive tract from their, they can reach other organs in the body and cause various illnesses chemicals came in contrast with the skin from washing clothes, or from swimming in polluted water and may lead to skin irritations.

Hazardous chemicals in water systems can also affect the animals and plants which live there. some times these organisms will survive with the chemicals in their systems, only to be eaten by humans who may then become mildly ill or develop stronger toxic symptoms. the animals and plants themselves may die or not reproduce properly.

***What are the causes of water pollution:**

Water is uniquely vulnerable to pollution known as a universal solvent water is able to dissolve more substances away from the than any other liquid on earth. it is the reason we have koolaid and brilliant blue water falls it is also why water is so easily polluted. toxic substances from farms, towns and factories readily dissolve into and mix it, causing water pollution.

*Ramalayam, seethanagaram

Politics:

*T.d.p ,y.s.r,y.s.r.c.p and Inc are Major politics in this area

Police station:

*Seethanagaram police station, seethanagaram .

Other amenities:

*Anganwadi centre.

*Asha workers.

*birth and death registration office are the other amenities in this village.

2.socio-economic survey of the village/habitation.

Data collection using prescribed formats.

The students of adikavi annaya university.go to village seethanagaram for doing socio-economic educational survey.our main moto of this survey is to know the living socio-economic conditions of the villagers .in this process we all divided into groups.we have questionnaire in which their socio-economic condition has been mentioned.after that we were assigned to go out .ask them their routine work,professions, source of income, composition of families.

It has been observed that mostly use two wheelers for daily purposes.maximum no.of people stay in pucca,Hut and semi pucca that reflect their socio-economic condition.rented houses is almost nill in the village.

The cheief economy of the village is depend on the agriculture activity.hence people have been found engaged with farming or farming related works and other are found to be involved in doing business.besides farming and business,villagers are also found to be engaged in other activities like co-workers in construction site, labourers to earn their livelihood.

Drinking water is one of the most important source of basic amenities to be ensured in our daily life style. even near about 80% of the families use govt tap connection and other 20% of the families use r.o water to drink all the families have own toilets families are LPG type cooking fuel is uses.

As per the government scheme most of the villagers have their bank accounts they use it for each transaction related to aagriculture. As a result of it, they don't have fixed deposits yes in the age of

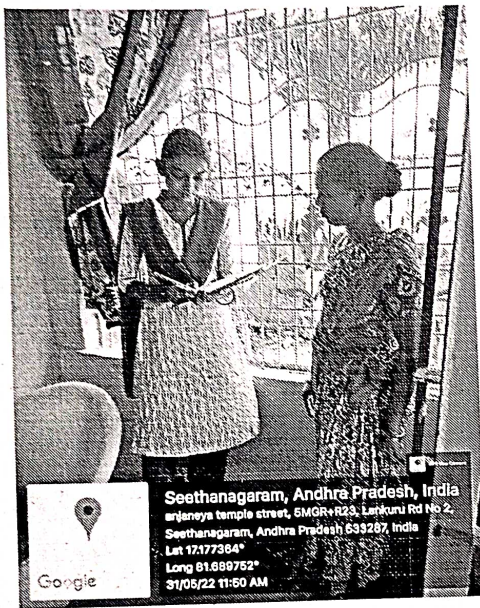

digital economy rural people use debit card or ATM cards. they use it for drawing money as per their requirements and the part of the government scheme dwacra group.

The village has to be properly needful developed. it stills lack the needful amenities for basic life style. the government and local administration like panchayat should work together to make their life style better than the current security in the village there is only middle standard school. people are partially satisfied with implementation of government school. the village has mixed types of houses including kacha and pucca houses. major transportation system of the village is bus. commonly highest education standard in a family is standard 10th criminal rate of the villagers is almost nill.

Women are quite active inside and outside the precinct of houses. The village does not have proper disposal system like waste management.

3.problems identified and analysis of the problem:

*Drinking water problem.

*Drainage problem.

*road problem.

*Govt transport problem.

*electricity problem.

Comman health problems:

*B.p

*Sugar.

By the survey above problems are analysed.

4) 1. short term possible solutions:

*Drinking water problem: it is solved by the panchayat secretariat.

*Drainage problem: it should be told to authorities of panchayat they will solve the problem within days.

*Road problem: it should be told to authorities of a road development corporation to solve the road problem. Electricity problem: it should be told to electricity related officers to solve the problem.

2. long term possible solutions:

*Sugar, b.p

*It is cured by doctors.

*Early and regular checkup by the prescribed hospital.

*Use the prescribed medicines.

*Know about the problem to take doctor suggestions properly.

5. community awareness program:

*I conduct the awareness program on the topic of water pollution.

*I explain about water pollution.

*I give information about causes and effects of water pollution.

*They also understand the water pollution and discussing the good things that have happened in the history of their community.

Problems:

* contaminated water to drink diseases like typhoid, skin pollution, malaria etc,.

Outcomes:

*Now they are clear about the water pollution.

*They know about causes and effects of water pollution.

*they are very well understand about the water pollution.
